

AS A HOMO SAPIENS.
AS A MAN.
I SAY THIS:

Millions of my brothers and sisters are suffering.
Millions of children are suffering.
Millions are on the run because of war and violence.
Millions are living with oppression, the women in particular.
Millions are living with lack of food, in hunger.

And every hour.
Day in and day out.
We spend hundreds of millions of dollars
on weapons, military and defense, - killing each other.
Trillions of dollars Every Year.
Included on Nuclear Weapons.

NOT IN MY NAME !

As Humanity, as World Citizens, as Homo Sapiens:
We Must Wake Up !

We are all Born Free.
All living on the same planet.
All Human Beings in the same Family.
All brothers and sisters.

ABOVE ALL NATIONS AND BORDERS !

We are all in the need of breathing the same air.
In the need of the same water.
In the need of food provided by mother earth.
In the need of secure homes and lives.

IN SOLIDARITY - COMPASSION - LOVE.
LAY DOWN THE WEAPONS !
NO MORE VIOLENCE !

Start looking at each other as fellow citizens.
Not living in separate countries.
But in a Global Village.

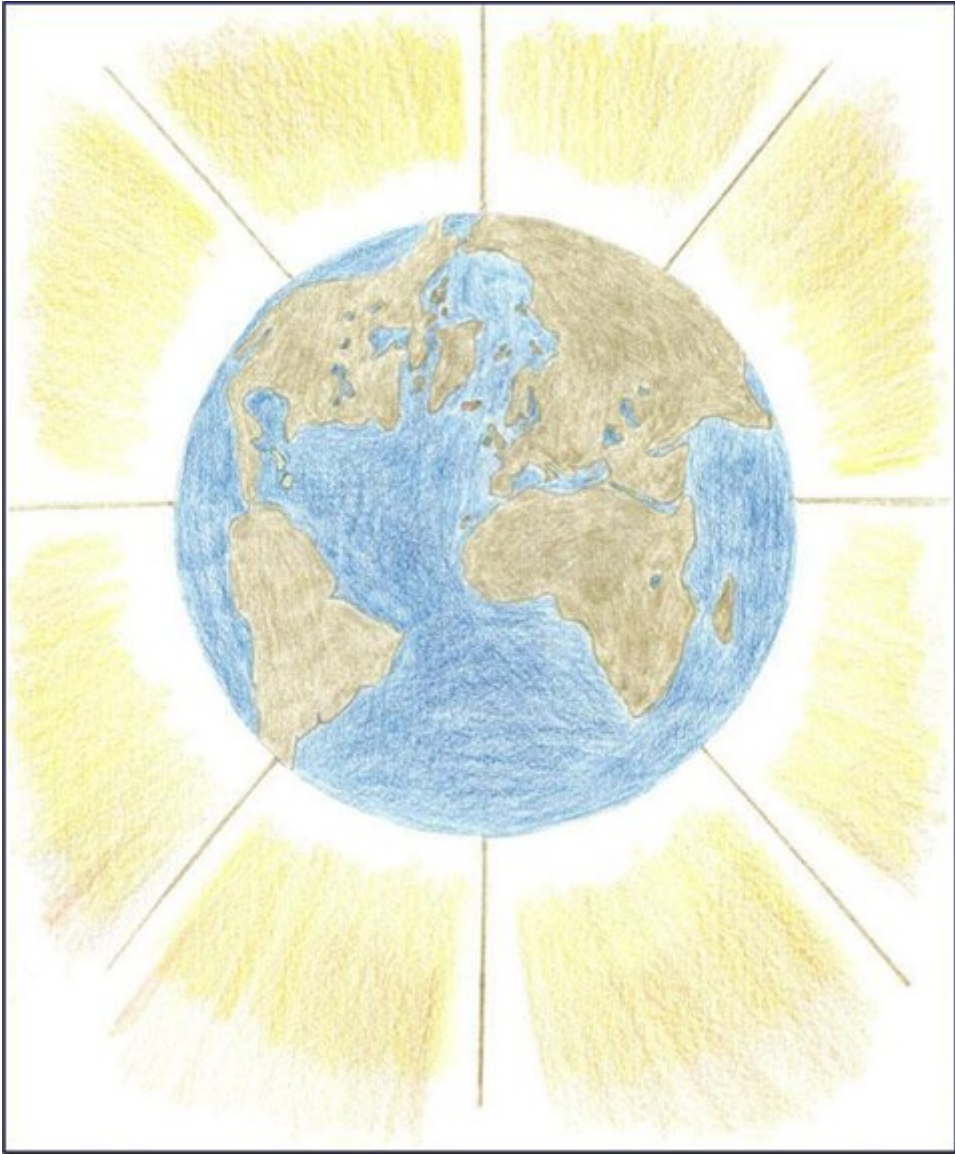

In this Global Village:
We have resources enough.
To provide food for everyone.
Home for everyone.
A peaceful and happy life for everyone.

IN FRIENDSHIP & COOPERATION.
LAY DOWN THE WEAPONS !
NO MORE VIOLENCE !
