## WORLD PEACE NOW

*What we can do !*

### **OPEN CALL TO ...**

*UN Secretary General  
All Heads and Leaders in the world  
All World Citizens*

2020

*Dear You,*

*I am a citizen in this world, - like we all are.  
I have a matter I want to share.*

...

*We are living in a difficult time, challenging the utmost in us all, as fellow citizens.  
Fighting violence and terror, - and abolishing poverty.*

*Together we have created a world, where the use of force and weapons has become normal.  
To secure us against new force encroachments, and to equalize the balance of power.*

*By this way, we have lost something vitally important:*

*We have lost the trust in each other.  
The trust that we all are human beings, - with a core of light and goodness.*

*By this way, - we have lost the trust in, - yes – the very spirit of life itself.*

*And this because we fear, that the goodness inside, isn't good enough.  
But, - the goodness inside is good enough !*

*Therefore is it now, - only the fear itself, we now have to conquer to recreate a world in trust.*

*Because when fear is conquered, we do trust the goodness inside.  
And we act with independence and responsibility. - To the best for all.*

*And this we experience as good.*

...

*As independent and responsible citizens, - states and nations.  
There are now three steps we can do, - to recreate a world in trust, - a world in peace.*

- 1. Stop producing and using force and weapons against each other.*
- 2. Disarm our weapons, - including the nuclear weapons.*
- 3. Help, share and serve one another, - and let the resources go to the people in poverty instead.*

*This will do, - that we no longer nourish the fear.  
And when no more reason to fear, other people and nations will follow.*

*This will do, - that we abolish the very foundation of force and weapons.  
Because all use of force and weapons are powerless, without the fear.*

*And, - we abolish poverty !  
Because we by this, - do release enough resources to help everyone in need.*

*Therefore now, - this call to us all.  
This for the children in the world in particular:*

...

**World Citizens !**

**All Heads and Leaders of states and governments in the world ! - Military leaders, soldiers, police, organizations, groups and all single individuals in the world !**

**DISARM ! - DISARM ! - DISARM !**

**Beat your swords your weapons into anothe pralice for PEACE.  
To the children in the world, to their FREEDOM to rise with no more fear from war and violence !**

**DISARM ! - LOVE ! - UNITE !**

*ARE YOU IN ?*

*There is a light in all and everyone  
Focusing that light, worldpeace is reality*
